More dough as your savings grow

Thanks to a rebate on the management charge you could have thousands of pounds more' going towards your retirement.

We're rewarding you for saving more, simple as that.

For people, not profit

Helping you build a bigger pension pot

As part of a not-for-profit organisation, one of the ways we choose to use any money we make is to help you save more for later life.

All pension schemes charge their members for looking after their money. **But with us, you now get something back... a rebate on your management charge.**

We reduce the rate we charge you as your savings increase, so more money stays invested for your future.

All those extra pounds and pennies add up over the years so you could end up with thousands of pounds more¹ in your pension pot.

Consider these 2 ways you could boost your savings and receive a larger rebate

1. Bring all your pension pots together

2. Increase the amount you pay into your pension each month

The return on your pension savings is likely to be better than from any savings in your bank account. And don't forget, you could get tax relief² from the government on your contributions, your employer may also pay in and now our rebate helps to boost your savings too.

Like to discover more about how the annual management charge works? Visit thepeoplespension.co.uk/how-charge-works for all you need to know.

¹ Assuming a member aged 35 with a starting fund of £15,000, a salary of £30,000 per year, paying 8% gross contributions, based on qualifying earnings for the 21/22 financial year, investment returns of 5% per annum, inflation of 2.5% per annum, and a retirement age of 68, this could add up to an extra £14,566.

² There are limits on how much you can save each year and receive tax relief on your contributions. The maximum is 100% of your UK earnings (up to the annual allowance) or £3,600 gross, whichever is higher. Visit thepeoplespension.co.uk/info-on-pension-tax to find out all the details.
